

LAUNCH PHASES

The launch phases (in the sense of RFC 8334 Launch Phase extension) are as follows:

Launch phase sunrise for TMCH sunrise for .sport eligible applicants;

GAISF recognized disciplines; sport disciplines recognized by GAISF. This phase is subdivided in four launch sub-phases, namely:

Phase disciplines-zero tariff allowing the registration of bundles of domain names related to a given sport discipline, as described in the .Sport Launch Policy, at zero cost per domain.

Phase disciplines-tracking allowing the registration of an instrumental domain name tied to bundles of names eligible in the phase above.

Phase disciplines-single allowing the registration of a single domain within the disciplines eligibility requirements.

Phase disciplines-gaisf allowing the registration of a single domain within the disciplines eligibility requirements with a reduced price for GAISF members.

Other priority categories:

Phase acronyms for International Sports Federations that are members of GAISF;

Phase priority including

Sport Governing Bodies and Public Authorities;

Clubs;

Disciplines not eligible in the previous phase;

Athletes; and

Brands, Events and Corporate Partners.

Even though all the applications corresponding to the above sub-phases (except Acronyms) will be registered in a single phase ("priority"), applications will be prioritized by the Registry, according to the .Sport Launch Policy. For instance, names from Governing Bodies will have priority over names from Clubs; and names from Clubs will have priority over names from Athletes, etc
